Institution	University of Mitrovica (UPKM)
Event title	GREEN WEEK
Event description:	
<p>One of the main aims of the PELMOB Erasmus + project is promotion and popularisation of Electrical mobility. In this regard many promotion and popularisation events are foreseen to be conducted at WB HEIs. One of the most important events is organisation of the Green Week at each WB HEI starting with second project year. The idea was to organize five-days in row event with the different target groups in order to popularize electrical mobility in the week when the Earth Day is celebrated 22 of April. This year 2024 the Earth Day is on Monday 22 of April so Green week for all WB HEIs was planned for this week. After thorough organization of this event, and beforehand promotion of the event itself, we are proud to show the outcome of the Green week.</p> <p>UPKM organized first Green week five-day event on 22-26 April 2024 which attended over 100 participants. Among participants from the UPKM, its faculties and students as well as many different stakeholders, local governments representatives and wider society. Also, Erasmus + KEO participated Green Week events. During the event different activities carried out, also popularisation materials created and printed within PELMOB project was presented and distributed during the event.</p> <p>Invitation letter for Green week has been published on the UPKM social networks available at the following link:</p> <p>https://www.facebook.com/share/p/pMgKzoHZn4Fc9qs/?mibextid=xfxF2i</p> <p>University of Mitrovica organized whole week dedicated to promotion of PELMOB project and above all the promotion of the electrical mobility and healthier environment.</p>	

22/04/2024 – UPKM Faculty of Technical Sciences – CEREMONIAL ACADEMY

On April 22, 2024 the Formal Academy was held on the Faculty of Technical Sciences of the University of Pristina with temporary headquarters in Kosovska Mitrovica. On this occasion, the beginning of the Green week of the PELMOB project was marked. The opening speech of this event was given by the Rector of University of Mitrovica Prof. Dr. Nebojša Arsić, as well as by the president of the temporary authority of the municipality of Kosovska Mitrovica, Ivana Zaporožac. Many other meritorious members also said a few words on this Formal Academy.

The goal of the event was to promote PELMOB project, and besides that to award the most successful students as well as the awarding of certificates of appreciation to friends and partners of the University of Mitrovica.

At this event, UPKM project team for international Erasmus + project PELMOB, Rector Prof. Dr. Nebojša Arsić and Prof. Dr. Bojan Perović spoke about the results of the projects achieved so far. Also, about the upcoming activities that are incorporated in Green week. Prof. Perović also said something more about accreditation of new bachelor study program related to transport and traffic engineering, with the specific subjects related to transportation of dangerous goods as well as modernization bachelor study program in the field of electrical and computer engineering with new and updated courses related to electrical mobility were presented as the project results, too.

During this Academy the Students' Day, which is officially on the April 23, was celebrated, hence the Day of the planet Earth as well as the Students' Day were the best possible opportunity to promote and mark the beginning of Green week.

This event has been published on the local TV stations, FTS TV, newspaper, as well as UPKM social networks available at the following links:

23/4/2024 – UPKM Faculty of Law & Faculty of Arts – Promotion of PELMOB project from the angle of art – from recycling to creations

According to the agenda and the plans for the second day of the Green week, Faculty of Law and Faculty of Arts organized thematic events.

The very beginning of the second day of Green week was marked by Photovoltaic Laboratory Trainer in Student Educations for REO, and later on with wind power training systems. Students were introduced and presented with these systems and also the main emphasis was on reduced environmental pollution, which is one of the main goals of PELMOB project.

The video material of this event is available on the following link:

<https://www.youtube.com/watch?v=emkaKLGHhGw>

Following event during the second day of Green week was an exhibition called RecycleArt which was held on the Faculty of Arts. This exhibition had as its main goal, the promotion of recycling and the usage of recycled materials in the process of creating art. The Dean of Faculty of Arts Prof. Dr Ester Milentijević opened the exhibition by promoting of PELMOB project and explaining the process of creating materials through recycling before it became a work of art.

This exhibition has been published on local TV stations, FTS TV, newspapers as well as the UPKM social networks available on following links:

24/4/2024 – UPKM Faculty of Law & Faculty of Arts – Humanitarian show

"Donate your prom outfit and save the planet"; Modernized curriculum within the PELMOB project

Following event whose main purpose was promotion of Pelmob project, electrical mobility and healthier environment, was held by the Faculty of Law and Faculty of Arts.

Very beginning of this day was marked by the presentation of popularization materials, brochures and leaflets. Afterwards the humanitarian show "Donate your prom outfit and save the Planet" was held in coordination of two faculties that combined their creativity and imagination, as well as their immaculate organisation skills. Main goal of this event was to raise awareness of pollution in younger generations, having in mind that fashion industry is second biggest polluter.

During this event Prof. Dr. Živče Šarkoćević presented PELMOB project and said something more about its goals and expectations. The event also had entertainment program which held the

attention of the participants and made whole event an unforgettable experience.
