OFFICIAL WEBSITE

<https://pelmob.pr.ac.rs/>

The image shows the official website of the PELMOB project. The header is dark blue with the PELMOB logo on the left and a European Union flag with the text 'Co-funded by the European Union' on the right. Below the header is a navigation bar with links: HOME, ABOUT, DELIVERABLES, PROJECT MEETINGS, DISSEMINATION, DOCUMENTS, and PROJECT MANAGEMENT. The main content area has a background of green leaves and a blue sky. It features a large heading 'WELCOME TO THE OFFICIAL WEB SITE OF ERASMUS+ PELMOB PROJECT' and a paragraph describing the project as an Erasmus+ Capacity building in Higher Education project titled 'Partnership for Promotion and Popularization of Electrical Mobility through Transformation and Modernization of WB HEIs Study Programs (PELMOB)'. The contract number '101082860-PELMOB-ERASMUS-EDU-2022-CBHE' is also displayed.

## Consortium

16 partners

Project consortium consists of  
**FOUR** EU HEIs,  
**TEN** WB HEIs,  
**ONE** non-academic partner from WB countries (WBC) and  
**ONE** associated partner (AP).

WB HEIs will improve the level of student competencies and skills through

- modernization/development of Undergrad/Master studies curricula,
- increase the level of teaching staff expert and language skills,
- increase aims to substantially increase awareness,
- understanding of target groups on EM issues thus creating favourable conditions for rapid improvement of EM education quality in WBC
- raise public awareness about the potential benefits of EM through popularisation events (Green weeks etc.).

## MAIN OBJECTIVES PROJECT

### IMPROVE AND DEVELOP THE EXISTING CURRICULA FOR UNDERGRADUATE AND MASTER STUDIES

in accordance with Bologna requirements and national accreditation standards by implementing new courses in the field of EM. These courses should cover provisions concerning Ecological and sustainable design in road traffic, Electro Mobility and Hybrid Technology, Organization and exploitation of Electrical Vehicles, Intelligent Technologies for Internet of Vehicle, Energy Storage Systems for Electric Vehicles, Electric Vehicle Systems Architecture and Standardization Needs. The aim of the improved study programs is to include the different disciplines such as environmental sciences, sustainable transport, and electrical engineering. Indicators for measuring achievement: 10 developed and implemented EM curricula (3 in Bosnia and Herzegovina, 3 in Kosovo\*, 2 in Montenegro, 2 in Albania). The modernized/new EM curricula will precisely define the teachers' competencies, learning outcomes, course content and syllabi.

**DESIGN AND IMPLEMENT NEW EM LABS IN WB.** The equipment obtained through the project will be used for the establishment of the laboratories where the students will have practical lectures related to the EM. Indicators for measuring achievement: 10 new laboratories will be established with appropriate equipment and manuals.

**CREATE AND ORGANIZE EM ASSOCIATIONS**, which will be comprised of all relevant interested stakeholders (schools, public and private companies, local self-governments etc.) and citizens. EM associations will organize various events such as workshops with popular lectures related to the use of EM, public demonstrations with use of EM devices, EM campaigns and other awareness raising activities. Special attention will be paid to EM associations workshops – GREEN WEEKS,

## Workplan PELMOB

(3 years\_Project Duration 2023-2025)

- + Work Package 1: Project management and coordination
- + Work Package 2: Introduction with key issues for popularization EM in WBC
- + Work Package 3: Development of EM curricula and labs
- + Work Package 4: Creation of associations for popularization of EM in WBC

ACTIVITY	YEAR 1				YEAR 2				YEAR 3			
	Q 1	Q 2	Q 3	Q 4	Q 1	Q 2	Q 3	Q 4	Q 1	Q 2	Q 3	Q 4
1.1 – Partnership Agreement Preparation												
1.2 – Kick-off meeting												
1.3 – Creation of Project management plan												
1.4 – Regular PMC and SC meetings												
1.5 – Day-to-day coordination of project activities												
1.6 – Interim and Final Reports												
2.1 – Introduction with key issues related to EM in EU and WBC												
2.2 – Analysis of Existing Curricula Related to EM												
2.3 – Survey of EM community awareness in WBC												
3.1 – Set up of EM laboratories												
3.2 – Defining of specific competencies and learning outcomes												
3.3 – Designing of EM courses												
3.4 – Preparation of teaching materials												
3.5 – Study visits for WB HEI teachers												
4.1 – Action plan for EM associations												
4.2 – Networking with EM stakeholders and citizens in WBC												
4.3 – Creation of EM associations												
4.4. – Creation of EM popularization materials												

## Workplan PELMOB

- + Work Package 5: Implementation of EM curricula and Green weeks
- + Work Package 6: Quality Assurance and Monitoring
- + Work Package 7: Sustainability
- + Work Package 8: Dissemination and Exploitation

[illegible]

## PROJECT ACHIEVEMENT

The PELMOB improves the quality of higher education in electromobility and harmonizes existing knowledge with new trends represented in the European Union.

The promotion and popularization of electromobility will lead to greater social acceptability and adoption of electric vehicles in the transport market.

## PROJECT ACHIEVEMENTS
